Titan+ Sensor Adapter
Titan Driver Accessory

UK CA RoHS CE

Benefits

- Can be retrofitted to any Titan driver to enable control with a range of accessories
- Boosts the number of ports available
- Compatible with any Titan driver

Key Features

- 3 x JB4 Ports
- 1 x Titan+ Port
- Thin Depth

Product overview

The Titan+ sensor adapter is the perfect solution for bringing advanced lighting control to a standard Titan driver, as well as boosting the number of lights that can be powered.

The adapter features a Titan+ sensor port as well as three standard lighting ports. The sensor port enables the use of any Titan+ accessories which will control any lights plugged into the three standard ports.

Finally, the adapter measures only 14mm in depth which means that it can be hidden away easily.

Technical Specification

Voltage	24V
Wattage	N/A
Operating Temperature	-20°C to +40°C
Operating Humidity	10% to 90%RH
Cable Length	2M

Mechanical Specification

Product	Dimensions (mm) (HxWxD)	Weight (g)	IP Rating
SE797990	45 x 40 x 14	66.8	IP20
